

MONTANA DEPARTMENT OF TRANSPORTATION
STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM (STIP)
DRAFT AMENDMENT

Disclaimer: These projects are included in the STIP Amendment in anticipation of Montana receiving additional federal transportation funds that may be released through a national economic stimulus plan. Amending the STIP to include these projects will make them eligible to be considered to receive federal funds quickly if needed but does not guarantee they will receive economic stimulus plan funding. This list is not a comprehensive list of projects that may receive economic stimulus funding, but is in addition to the projects in MDT's approved 2008-2012 STIP. The Metropolitan Areas (Missoula, Great Falls, and Billings) and the federally administered programs (Indian Reservation Roads) economic stimulus plan projects' public involvement process will be handled through these entities' TIP approval and amendment process. The following link will take you to the 2008-2012 approved STIP: [Statewide Transportation Improvement Program](#). These projects are not listed in order of priority. Priority will be determined once the economic stimulus plan is enacted, in accordance with the final requirements and criteria established by Congress for the use of these funds. If you have questions about this list or about the status of the economic stimulus plan, please click on the following link: [MDT Comment/Request Form](#).
